1. Identification/Recognition

A LACK OF MOTOR NOISE DOES NOT INDICATE THE SYSTEM IS OFF, A SILENT MOVEMENT CAPABILITY EXISTS UNTIL THE VEHICLE IS FULLY SHUT DOWN. ALWAYS WEAR APPROPRIATE PPE.

2. Immobilisation/Stabilisation/Lifting

Immobilise the Vehicle

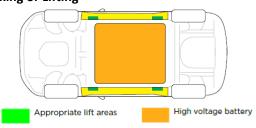

A: Place in P position;

B: Apply the EPB;

C: Leave the driver seat with the key and close all doors, bonnet and tailgate,

key to turn off the power.

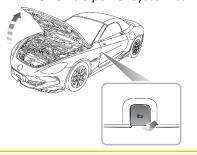

Jacking or Lifting

press the Lock button of the Use caution to ensure you never come into contact with the high voltage battery or other high voltage components while lifting or manipulating the vehicle.

3. Disabling Direct Hazards / Safety Regulations

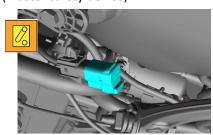

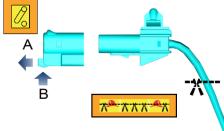

Power off and disconnect the negative cable of 12V low-voltage battery.

In cases of emergency, the high voltage system can be isolated by removing the manual service disconnect device (master safety device).

Open the bonnet, pull out the clip from the manual service disconnect(A), press the end of the clip (B) and remove the manual service disconnect. If the situation is very urgent

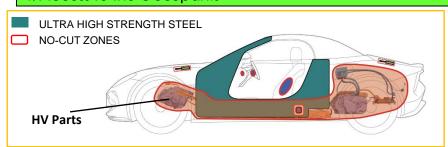

and you cannot disconnect the manual service device, you can simply cut the manual service disconnect harness.

4. Access to the Occupants

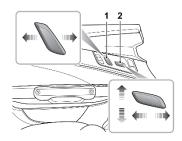

Glass types

· Front window: Laminated glass · Rear window: Tempered glass

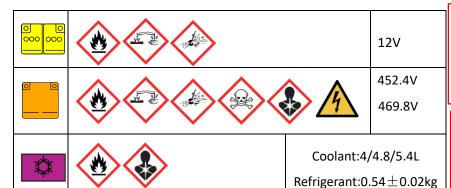

Fully release the locking lever, the steering wheel can be adjusted in 4 directions.

- 1 Backrest Adjustment
- 2 Forward/Backward adjustment **Cushion Height Adjustment**

5. Stored Energy / Liquids / Gases / Solids

The battery assembly cover should never be breached or removed under any circumstances, including fire. Doing so may result in severe electrical burns, shocks, or electrocution.

When coolant leaks from the battery pack, it can become unstable with a

risk of thermal runaway. Check battery pack temperature with a thermal imaging camera.

6. In Case of Fire

USE LARGE AMOUNTS OF WATER.

BATTERY RE-IGNITION!

DO NOT SUBMERGE VEHICLE TO EXTINGUISH BATTERY.

- Wear a full set of insulated protection equipment and use specialized insulated tools.
- Disconnect the high-voltage output immediately when conditions permit.
- Continuously spray with a large amount of continuous water.
- Ensure the high-voltage battery is completely extinguished and cooled to avoid reignition.
- To recover the vehicle, do not tow it directly, use a rescue vehicle instead.

7. In Case of Submersion

- Wear a full set of insulated protection equipment and use specialized insulated tools.
- Avoid touching the metal conductor of the damaged high-voltage device.
- If there is no hissing sound or foam being emitted by the high voltage battery pack, the vehicle can be salvaged by professional organizations.
- After recovery from deep or flood water the vehicle high voltage system must be isolated. For the specific method of disconnecting high-voltage power, please refer to Chapter 3. Isolate the vehicle by placing it in an open location after disconnecting the high voltage.
- To transfer the vehicle, do not tow it directly but use a recovery vehicle instead.

8. Towing / Transportation / Storage

- Personnel are prohibited from staying in the vehicle when towing and transporting the vehicle.
- When using a transporter to ship the vehicle always ensure the parking brake is applied, and the vehicle must be secured as illustrated.
- The vehicle can be towed from the site only when you make sure there is no safety risk. If the battery pack is deformed, leaks, smokes, etc., the safety risk should be solved first.
- Before towing the vehicle, switch on the hazard warning lamps, close all doors and lock the vehicle. The drive wheels MUST be suspended above the ground.
- When towing, DO NOT accelerate or brake suddenly, this can cause accidents.

Please consult the Owner's Handbook for detailed instructions

9. Explanation of Pictograms Used									
4	Electric Vehicle	A	Warning, Electricity	口口	Airconditioning component	A	Lifting point	☐IR SS	Use thermal Infrared camera
(A)	Steering wheel, tilt control		Seat adjustment, longitudunal		Seat height adjustment	OF THE PROPERTY OF THE PROPERT	Use water to extinguish the fire		Hazardous to human health
